EDUCATION

- Dual Bachelor of Science and Master of Information Systems Management, emphasis in Agentic AI** Apr 2028
Brigham Young University, Marriott School of Business Provo, UT
- GPA: 3.8/4.0
 - Professional Scrum Master I Certified (PSM I), Scrum.org, March 2026
 - 2nd Place at BYU National Advisory Council 2025 Case Competition, Adminify AI Case (98 Teams)
 - Integrated Experience Project: Designed a database and deployed a web application on AWS for a local nonprofit

EXPERIENCE

- Technical Specialist Intern** Apr 2026 – Present
Brigham Young University, Workday Enterprise Solutions Group Provo, UT
- Support BYU's university-wide migration to Workday, one of the largest ERP implementations in the university's history, delivering 20+ custom reports and integrations across BYU's colleges
 - Serve as project manager for a biannual enterprise software release and the system-wide rollout of a new data object, translating new functionality into tracked work for the team and running the validation testing for go-live
 - Optimized a production integration by replacing calculated field filters with indexed field lookups, reducing API response times by over 90% across 2 reports (3.6s to 286ms, 8.6s to 419ms)
- Software Engineer** Jan 2026 – Apr 2026
JT SWPPP Provo, UT
- Built and deployed a full-stack web application for an AI-powered construction compliance startup, developing a client portal that enables live camera feeds and access to compliance documentation across active job sites
 - Served as the technical bridge between company founders and a consulting engineering team, translating executive vision into technical architecture decisions and actionable development direction to drive the product toward launch
- Property Manager** Jul 2024 – Apr 2026
Bright House Property Management Provo, UT
- Managed maintenance operations for 40+ properties in Utah, handling routine service tasks and larger projects
 - Collaborated with clients to define project objectives, manage expectations, and deliver solutions
- Business Intern** Sep 2024 – Dec 2024
River Logistics (On-Campus Internship) Provo, UT
- Designed and implemented automation processes to improve client email communications using AI and internal TMS software (Transportation Management System)
 - Collaborated with the CEO, COO, and a team of interns to translate an ambiguous request for AI implementation into working automation that improved communication flows and saved an estimated 500+ hours annually

LEADERSHIP & SERVICE

- Volunteer Representative in the Utah Provo Mission** Apr 2022 – Apr 2024
The Church of Jesus Christ of Latter-day Saints Provo, UT
- Coordinated missionary efforts across multiple areas and 20+ congregations through daily collaboration with local leadership and weekly strategy meetings, improving local outreach
 - Built relationships and connections with individuals and families across multiple cultures while teaching in both English and Spanish, strengthening ability to connect and understand others

SKILLS & PERSONAL

- Technical: PostgreSQL, Azure DevOps, GitHub, AWS, Tableau, Python, SQL, JavaScript, Linux, React
- Applied: ERP Implementation, Project Management, System Integrations, Report Development, Data Analysis & Visualization, Machine Learning, Process Automation, Client Relations
- Happiest outside, usually snowboarding, wake surfing, or hiking with friends, always looking for the next adventure
